

Magic Monogram Light

Adobe Illustrator script
Created by mai-tools.com

User Guide

Introduction

Magic Monogram Light is a script for Adobe Illustrator which creates monograms, logos, frames and other decorations automatically from your art elements.

You can set any number of sides for your monogram. Script has no limitation.

It also has an option to add inner and outer frames.

Batch processing is available. Select a lot of objects and create monograms with them in one click.

No effects - 100% vector paths and shapes.

Magic Monogram Light is much faster and easier than brushes.

Script does not distort the proportions of the original object.

It's perfect for creating illustrations in vintage style, especially for microstocks.

Compatibility: Adobe Illustrator CS5, Adobe Illustrator CS6, Adobe Illustrator CC.

Script version is universal for Windows and Macintosh OS.

You can purchase Magic Monogram Light script for **\$10** right now!
Visit our website: **mai-tools.com**

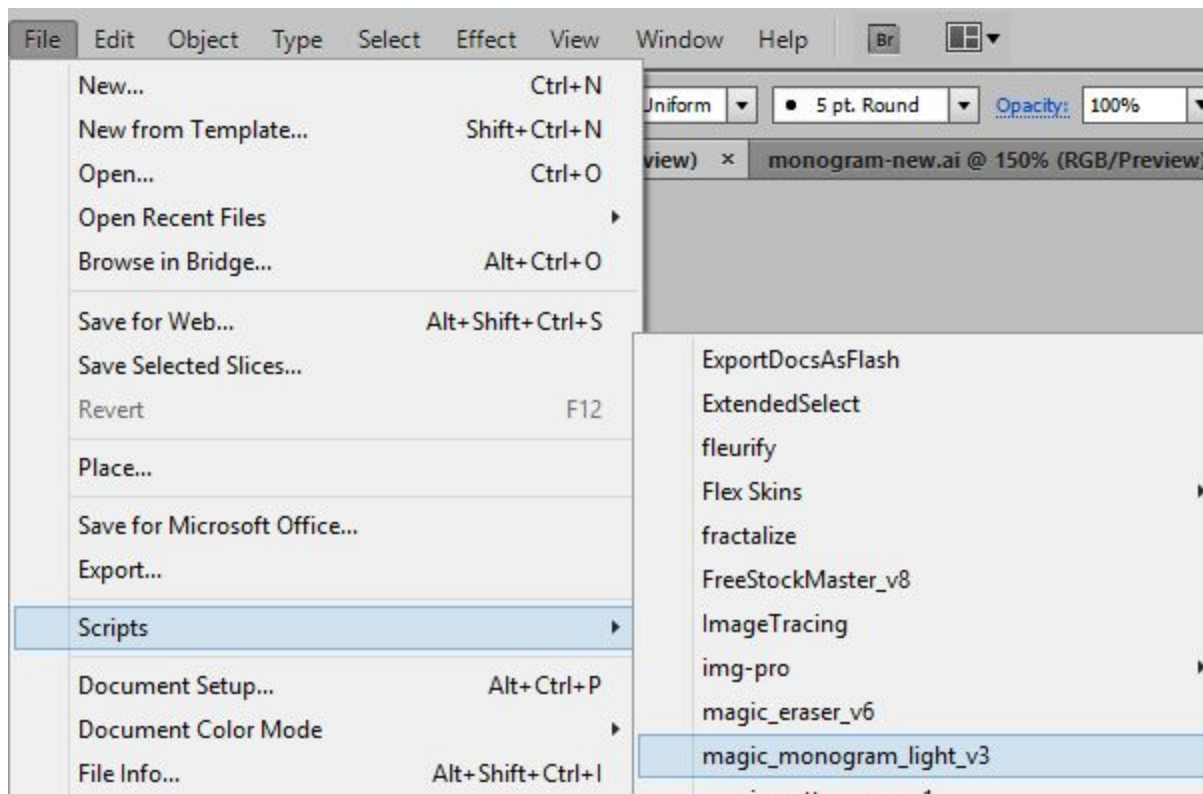

Installation

Drag and drop the file (*magic_monogram_light_v3.jsx*) to the script folder of your Adobe Illustrator. Its location depends on your Adobe Illustrator version and system configuration.

For example, for Windows Adobe Illustrator CC (English version) it might be: *C:\Program Files\Adobe\Adobe Illustrator CC 2014\Presets\en_GB\Scripts*

For Adobe Illustrator CS6 (English version) for Windows it might be:
C:\Program Files\Adobe\Adobe Illustrator CS6 (64 Bit)\Presets\en_GB\Scripts

Then run Adobe Illustrator. You can find the script in the main menu (*File > Scripts > magic_monogram_light_v3*). You can also run the script without installation (Go to *File > Scripts > Other Script (Ctrl+F12)*).

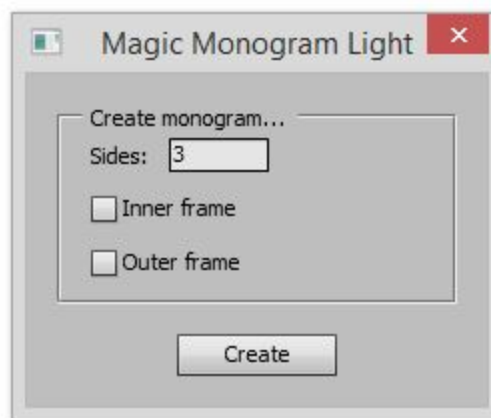

How to use

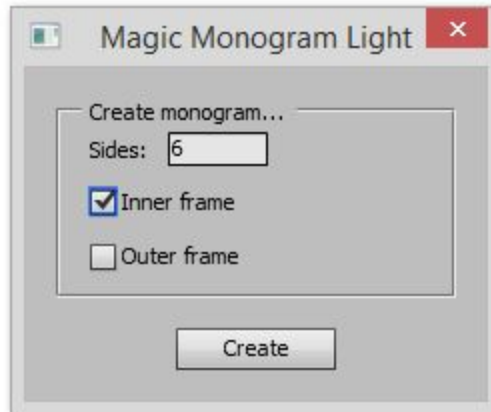

Create a new file in Adobe Illustrator (*Ctrl+N*). Draw an element. It would be better if it has horizontal orientation.

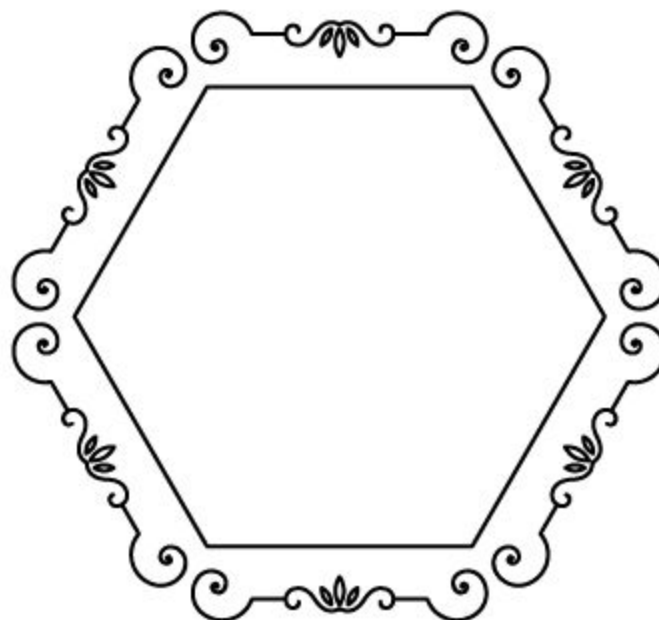

Select your element. If it consists of several parts, please group them (*Ctrl+G*). Now you can run the script Magic Monogram Light. You will see a script window.

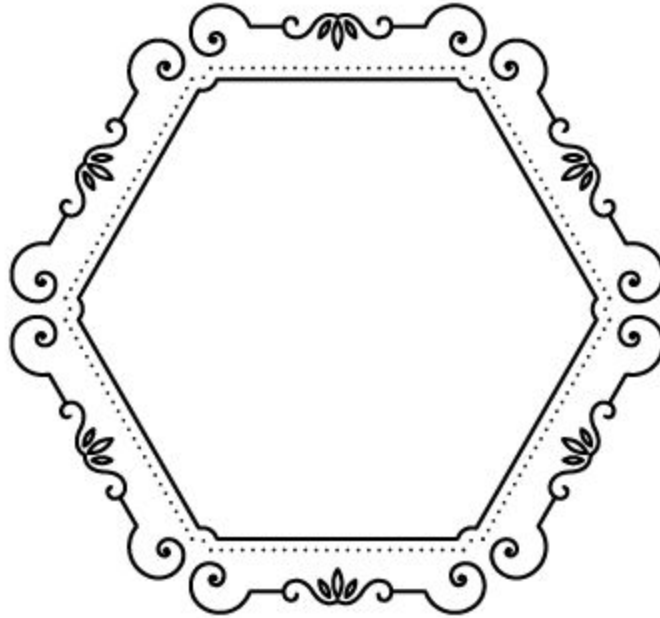

Set the number of sides for your monogram. You can also select checkbox "Inner frame" or "Outer frame" or both of them.

Then press the "Create" button. The script will create the monogram.

You can improve your design. Using stroke settings and corners modifications.

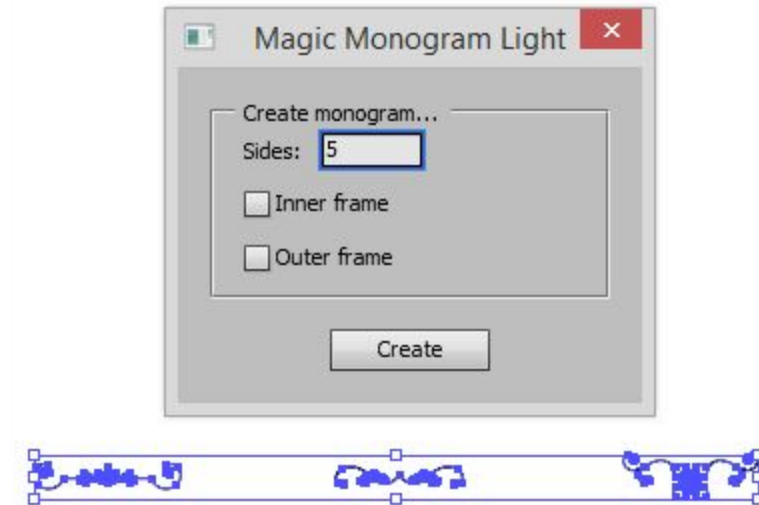

Rotate, add text, be creative! The monogram is ready.

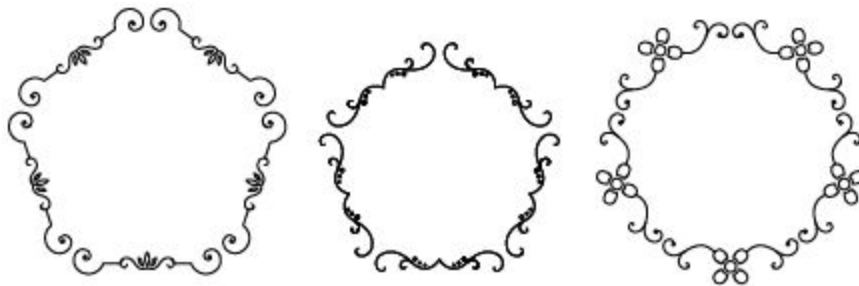

restaurant

Batch processing

Select several objects and run the script Magic Monogram Light. Press the "Create" button.

The script will create monograms from each element.
